"I've reached a point in my life where I'm incredibly motivated to achieve my goals. It means a lot to me that the SFBU scholarship committee believes in me. This Award has given me the certainty and confidence that I will be able to successfully complete my program of study without feeling frustrated because it has provided me with the focus and sound mind that I require to excel. Thank you, SFBU!!"

SOE WUNNA

It is a once-in-a-lifetime opportunity for me to receive the SFBU President's Scholarship Award. Knowledgeable professors with industry experience, scholarship awards, and good-hearted staff are helping me tremendously in pursuing my dream and career goals in the United States of America. SFBU not only provides the most modern quality education but also prepares us for the essential life skills and the job market in Silicon Valley. To sum up, I'm so grateful to be one of the MSCS students at SFBU."

San Francisco Bay University Expands Its Online Degree Programs

San Francisco Bay University (SFBU) is proud to announce the expansion of its online degree programs. This development will allow even more students to earn their degrees from the comfort of their own homes.

Several of the programs SFBU offers are available online. These include:

- Bachelor of Science in Business Administration (BSBA)
- Master of Business Administration (MBA)
- Master of Science in Computer Science (MSCS)
- Intensive English Program (IEP)

These programs are designed for busy working professionals who want to continue their education without sacrificing their careers or time with family.

With so many people working remotely, online education in its many forms is here to stay. And like many other universities in San Francisco, California, we are glad to bring online classes to our student body.

Paul Choi, EVP of SFBU, said, "Students should feel comfortable knowing that what is covered in an in-person class is also covered in an online course. They can expect to receive the same rigorous learning and top-notch professors online as you would in person."
