

FEBRUARY 2023

SFBU Connection

San Francisco Bay University is leading the way in addressing the impact of ChatGPT on education.

ISSUE NO. 12

SFBU's Got Talent Show

We are excited to invite you to San Francisco Bay University's talent show, "SFBU's Got Talent"! Join us for a night of singing, dancing, comedy, and more! We look forward to seeing the amazing talent that SFBU has to offer. Come out and support your fellow students as they take the stage and showcase their skills. This will be a night to remember, filled with fun, laughter, and exceptional talent!

Event Details:
SFBU's Got Talent Show
Friday, April 7th, 2023
6:00 PM
San Francisco Bay University in the Learning Resource Center

Student Scholarship Testimonials

NAMAN KUMAR

I have always dreamed of pursuing a degree in the U.S., but the tedious process and the cost involved pushed me back. I was thrilled to know about being awarded the housing and presidential scholarship, and could see my dream to get an education and build a career in the U.S. come true. I am extremely grateful to SFBU for providing me with this once-in-a-lifetime opportunity, and helping me attain my professional goals and take my career to new heights.”

Presidential and Housing Scholarship recipient
MSCS program

MUNKHTUYA SANJMYATAW

“I am honored to have been selected for this prestigious opportunity. The scholarship has provided me with the financial support necessary to pursue my MBA degree in Silicon Valley. I am deeply grateful to the scholarship program for its support and investment in my education. I am excited to see where this opportunity will take me as I leverage the skills and knowledge gained from our excellent professors and the university's support to succeed in the business landscape of Mongolia.”

SFBU Addresses ChatGPT's Impact on Education

San Francisco Bay University (SFBU) is taking a proactive approach to address the impact of ChatGPT on higher education. Utilizing the GPT-3 language model developed by OpenAI, ChatGPT has been hailed as a game-changer in the education industry. However, its potential for misuse, including cheating on assignments and exams, raises concerns. SFBU asked several engineering department faculty members how ChatGPT is influencing their teaching style and how they are adapting to the innovation.

Engineering Dean Thawi Iwagoshi acknowledged that "any advanced technologies can be used to do beneficial or harmful things...Our faculty members have taken notice of this early on and begun a discussion on how to utilize ChatGPT to help with student learning. We are also finding means and developing policies to prevent it from being used in ways that infringe on our academic integrity."

As SFBU faculty member Ahmed Banafa noted, "The impact of ChatGPT on higher education is still uncertain, but it holds the potential to greatly improve the way students learn and how educators teach."

Dr. Henry Chang emphasized that educators need to find ways to harness ChatGPT's full potential while addressing the challenges it presents: "It's unrealistic to simply ban it. Instead, we need to educate students on the responsible use of ChatGPT, and find ways to use it for improvement in teaching, and prevent its misuse."

SFBU is committed to finding ways to responsibly incorporate ChatGPT into higher education while also ensuring that it is not misused. A formal working group is currently delving deeper into these concerns, and finding solutions that support innovation and maintain academic integrity.
