SAN FRANCISCO BAY UNIVERSITY CELEBRATES NEW PRESIDENT & NEW CAMPUS GRAND OPENING

SAN FRANCISCO BAY
UNIVERSITY

San Francisco Bay University celebrates a successful Welcoming our New President and New Campus Grand Opening event, signifying the beginning of an exciting era brimming with growth and success under the visionary leadership of President Nick Ladany. The Fremont Chamber of Commerce played a significant role in coordinating this remarkable occasion, and we were honored to have Fremont Mayor Lily Mei deliver a speech.

SFBU President Ladany captivated the audience as the keynote speaker. The event radiated enthusiasm and a strong community spirit as we proudly showcased our new campus and rejoiced in the promising future ahead. Together, we are committed to providing students with an exceptional academic experience.

JULY 2023

INTERNATIONALLY-RENOWNED EXPERT & SFBU PROFESSOR AHMED BANAFI RELEASES TWO BOOKS ON BLOCKCHAIN TECHNOLOGY AND INTERNET OF THINGS

"Introduction to Blockchain Technology" and "Introduction to Internet of Things" promise to guide readers through the revolutionary technologies that are shaping our future.

Ahmed Banafa, a globally-recognized expert and professor at San Francisco Bay University, is set to release two insightful books, "Introduction to Blockchain Technology" and "Introduction to Internet of Things" on July 28 and July 31, 2023, respectively.

"Introduction to Blockchain Technology" delves into the fundamentals of blockchain, a transformative technology with significant potential in various sectors, such as banking and supply chain. "Introduction to Internet of Things" provides a comprehensive overview of IoT, a technology set to interconnect up to 75 billion devices by 2025, transforming our lives and businesses.

[READ MORE](#)

Professor Banafa shared, "With these books, I aim to guide readers through these revolutionary technologies that are shaping our future. Blockchain and IoT are not just buzzwords, but are at the forefront of a new era. Their applications are vast, and while complex, it's crucial for everyone to understand their potential. They are set to redefine industries and how we live our daily lives."

LinkedIn named Professor Banafa as the "No. 1 Tech Voice to Follow" in 2018. His research has been featured in Forbes, IEEE, and MIT Technology Review. Professor Banafa has also appeared on ABC, CBS, NBC, CNN, BBC, NPR, Fox TV, and numerous radio stations.
